

KADIMI VENKATA SHASHANK YADAV

+91 8919323414 | kadimishashank@gmail.com | SHASHANK8412 | Shashank Yadav | K V Shashank

EDUCATION

Chaitanya Bharathi Institute of Technology (CBIT) <i>B.Tech in Information Technology CGPA: 8.62</i>	2023 – Present Hyderabad, India
Page Junior College <i>Intermediate (MPC) Percentage: 97.6%</i>	2021 – 2023 Hyderabad, India
NTR Model School – CBSE <i>Class X CGPA: 9.12</i>	2021 Hyderabad, India

EXPERIENCE

Web Development Trainee <i>Codegnan</i> - Built 3+ responsive web apps using HTML, CSS, JavaScript, and React, improving UI consistency and cross-device compatibility. - Integrated 5+ dynamic UI components with REST APIs, reducing data-fetch latency and streamlining frontend-backend communication.	Jun 2025 – Aug 2025 Hyderabad, India
--	---

PROJECTS

Foodex React, Redux, Node.js, Express, MongoDB, Kafka, Socket.IO, Razorpay - Built a full-stack food delivery platform with role-based workflows (user, restaurant, delivery, admin), real-time order tracking via Socket.IO, and Kafka-driven event processing. - Integrated Razorpay, Google OAuth, and AI-based recommendation APIs, enhancing UX and operational efficiency across 4 service roles.	GitHub
Vis Global React, Node.js, Express.js, MongoDB - Built a full-stack MERN application with role-based Admin and Student portals, supporting 20+ workflows for student management, document processing, and academic administration. - Engineered an offline-first synchronization system achieving 95%+ successful data recovery after network restoration, reducing manual data re-entry by 80%. - Developed 15+ REST API endpoints and optimized MongoDB queries, reducing backend synchronization latency by 40% while improving data consistency across distributed clients.	GitHub
CricXify React, Node.js, Express.js, MongoDB - Designed and developed a MERN-based cricket analytics platform exposing RESTful APIs, optimized MongoDB queries, and processing real-time match and player statistics. - Designed normalized MongoDB schemas reducing average query latency by 42% while supporting 10,000+ cricket records. - Integrated a GenAI-based recommendation engine that generated personalized player insights, match predictions, and content recommendations.	GitHub
Deep Learning — CNN Architectures on CIFAR-10 Python, PyTorch, TensorFlow Benchmarked 5 CNN architectures; VGG16 with transfer learning achieved 85–90% accuracy, a 30% absolute improvement over scratch-trained LeNet baseline.	GitHub

SKILLS

Programming Languages: Java, Python, JavaScript, SQL
Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming (OOP), Operating Systems, Database Management Systems (DBMS), Computer Networks
Backend Development: Node.js, Express.js, RESTful APIs, Authentication (JWT, OAuth), Microservices, Socket.IO
Frontend: React.js, Redux Toolkit, HTML5, CSS3
Databases: MySQL, PostgreSQL (SQL), MongoDB (NoSQL)
Frameworks & Tools: Git, GitHub, Kafka, Firebase
AI/ML: PyTorch, TensorFlow, Scikit-learn, Pandas, NumPy, CNNs, Transfer Learning, LLMs, RAG
GenAI: LangChain, CrewAI, AutoGen, Pydantic, Gradio, n8n, Prompt Engineering

CERTIFICATIONS

Microsoft Azure AI Fundamentals Agentforce Specialist

LEADERSHIP & ACTIVITIES

Treasurer, CDSC (CBIT Developer Student Club) — Co-organized **VibeathonX**, a national hackathon with **1,300+ registrations** and **100 competing teams** from across India.

IEEE Member, CBIT Student Branch — Active contributor to technical events, workshops, and peer learning initiatives.
